

**Weekly Evidence Surveillance 18/07/2025**

Source	Item	Pub Date	Details
<a href="#">ECDC</a>	<a href="#">Seasonal surveillance of chikungunya virus disease in the EU/EEA</a>	16/07/2025	Since the beginning of 2025 and as of 16 July 2025, two countries in Europe have reported cases of chikungunya virus disease: France (30) and Italy (one).
<a href="#">ECDC</a>	<a href="#">Seasonal surveillance of dengue in the EU/EEA, weekly report</a>	16/07/2025	Since the beginning of 2025 and as of 16 July 2025, three countries in Europe have reported cases of dengue: Portugal (two), Italy (one), and France (one).
<a href="#">ECDC</a>	<a href="#">Weekly updates: 2025 West Nile virus transmission season</a>	16/07/2025	Since the beginning of 2025, and as of 16 July 2025, 3 countries in Europe reported human cases <sup>1</sup> of West Nile virus infection : Greece, Italy and Romania.
<a href="#">ECDC</a>	<a href="#">Seasonal surveillance of Crimean-Congo haemorrhagic fever (CCHF) in the EU/EEA</a>	16/07/2025	Since the beginning of 2025 and as of 16 July 2025, two countries in Europe have reported cases of Crimean-Congo haemorrhagic fever (CCHF): Greece (two) and Spain (two).
<a href="#">WHO</a>	<a href="#">WHO Alliance for the Global Elimination of Trachoma: progress report on elimination of trachoma, 2024–2025</a>	18/07/2025	This report summarizes application of the SAFE strategy against trachoma during 2024. It includes estimates of the global population at risk of trachoma blindness based on district-by-district data submitted to WHO by national programmes.
<a href="#">WHO</a>	<a href="#">Agriculture: sectoral solutions for air pollution and health</a>	17/07/2025	This document is part of the WHO Air Quality, Energy, and Health Science and Policy Summaries (SPS). These summaries provide concise overviews of current knowledge and evidence on air quality, energy access, climate change, and health.
<a href="#">WHO</a>	<a href="#">Air quality legislation and implications for health</a>	17/07/2025	Air quality legislation and implications for health highlights specific aspects of air quality governance, especially the need for air quality standards embedded in legislation and aligned with the WHO air quality guidelines to ensure public health protection.
<a href="#">WHO</a>	<a href="#">Interim medical countermeasures network: report of the second annual partners meeting, Geneva, Switzerland, 17-19 September 2024</a>	17/07/2025	The report on the interim Medical Countermeasures Network (i-MCM-Net) presents an overview of the network's second annual Partners Meeting, held in Geneva, Switzerland, from 17 to 19 September 2024.
<a href="#">WHO</a>	<a href="#">Climate change, air pollution, pollen and health</a>	17/07/2025	Climate change, air pollution, pollen and health highlights the linkages between air pollution, pollen and health in the context of a changing climate. The technical brief summarizes priority actions to

			address the health impacts of this source of air pollution and success stories that have addressed this issue.
<a href="#">WHO</a>	<a href="#">The synergies of heat stress and air pollution and its health impacts</a>	17/07/2025	This document highlights the synergies of heat stress and air pollution and the implications on health. The technical brief summarizes priority actions for the short, medium and long term to protect public health and success stories of addressing heat stress and air pollution jointly
<a href="#">WHO</a>	<a href="#">Open waste burning: sectoral solutions for air pollution and health</a>	17/07/2025	Open waste burning - sectoral solution for air pollution and health highlights this issue of open waste burning as a source of ambient air pollution and the implications on health. The technical brief summarize priority actions for the short, medium and long term to address the health impacts of this source of air pollution and success stories of effective waste management approaches.
<a href="#">WHO</a>	<a href="#">Risk communication and community engagement readiness and response toolkit: ebola disease</a>	16/07/2025	This toolkit is a comprehensive set of practical tools and resources designed to support country-level risk communication and community engagement (RCCE) practitioners, decision-makers and partners to plan and implement readiness and response activities for Ebola disease outbreaks
<a href="#">WHO</a>	<a href="#">Policy considerations for strengthening preparedness and response to arbovirus epidemics and pandemics</a>	16/07/2025	The increasing incidence of arboviral outbreaks, such as dengue, chikungunya, and Zika, highlights the need for urgent and stronger preparedness and response systems.
<a href="#">WHO</a>	<a href="#">Overview of WHO recommendations on HIV and sexually transmitted infection testing, prevention, treatment, care and service delivery</a>	14/07/2025	This document highlights the latest WHO recommendations designed to optimize health outcomes, streamline delivery and address persistent barriers to prevention and care. It especially focuses on people often left behind in service delivery, including adolescents and young people, key populations and people with advanced HIV disease.
<a href="#">WHO</a>	<a href="#">Recommendations on the delivery of health services for the prevention and care of sexually transmitted infections</a>	14/07/2025	These guidelines promote the delivery of people-centred health services for STIs by providing evidence-based recommendations related to decentralization, integration, task sharing and digital health.
<a href="#">WHO</a>	<a href="#">Country guidance for planning triple elimination of mother-to-child</a>	14/07/2025	This publication provides guidance for planning country-specific programming to achieve the triple elimination of mother-to-child (or

	<a href="#">transmission of HIV, syphilis and hepatitis B virus programmes</a>		vertical) transmission of HIV, syphilis and hepatitis B virus. It is based on the WHO Triple Elimination Framework
<a href="#">WHO</a>	<a href="#">Integrating HIV, viral hepatitis and sexually transmitted infections with primary health care – Learning from countries</a>	14/07/2025	This new policy brief highlights progress and lessons learned from efforts to converge, link and integrate these services with PHC in several low- and middle-income countries.
<a href="#">WHO</a>	<a href="#">Guidelines on lenacapavir for HIV prevention and testing strategies for long-acting injectable pre-exposure prophylaxis</a>	14/07/2025	In this guideline, WHO recommends an offering long-acting injectable lenacapavir (LEN) as an additional HIV prevention choice, as part of combination HIV prevention approaches.
<a href="#">WHO</a>	<a href="#">Consolidated guidance on tuberculosis data generation and use: module 3: national tuberculosis prevalence surveys</a>	11/07/2025	This third edition is intended to support national surveys implemented from 2025 up to around 2035.
<a href="#">CDC</a>	<a href="#">CDC warns of Salmonella outbreak linked to frozen sprouted beans   CDC Newsroom</a>	16/07/2025	A CDC food safety alert regarding a multistate outbreak of Salmonella infections has been posted: <a href="https://www.cdc.gov/salmonella/outbreaks/sproutedbeans-07-25/index.html">https://www.cdc.gov/salmonella/outbreaks/sproutedbeans-07-25/index.html</a> .
<a href="#">UKHSA</a>	<a href="#">UKHSA issues warning over botulism - GOV.UK</a>	18/07/2025	UK Health Security Agency (UKHSA) is warning people to be aware of the signs and symptoms of botulism after a small number of individuals presented to NHS healthcare settings following adverse reactions after receiving cosmetic procedures involving botulinum toxin.
<a href="#">UKHSA</a>	<a href="#">Template measles letter to paediatricians, oncologists and immunologists - GOV.UK</a>	18/07/2025	Updated letter.
<a href="#">UKHSA</a>	<a href="#">Vaccines and porcine gelatine - GOV.UK</a>	17/07/2025	Updated with revised leaflet.
<a href="#">UKHSA</a>	<a href="#">MMR catchup programme: diagnosis, case management, and advice - GOV.UK</a>	17/07/2025	Changed '5 days' to '4 full days' in 'Managing cases and contacts' section.
<a href="#">UKHSA</a>	<a href="#">Botulism: clinical and public health management - GOV.UK</a>	17/07/2025	Addition of Iatrogenic botulism guidance.
<a href="#">UKHSA</a>	<a href="#">Botulism: reporting questionnaires - GOV.UK</a>	17/07/2025	Added Iatrogenic botulism questionnaire.

<a href="#">UKHSA</a>	<a href="#">Flu vaccines for children and young people for 2025 to 2026 - GOV.UK</a>	17/07/2025	Updated poster for flu season 2025 to 2026
<a href="#">UKHSA</a>	<a href="#">Travel-associated infections reports - GOV.UK</a>	17/07/2025	Added "travel-associated infections in England: 2022, 2023 and 2024 (Regional analysis)". Updated the landing page to explain differences in the published reports and their data sources
<a href="#">UKHSA</a>	<a href="#">Flu vaccination: simple text information for adults and children - GOV.UK</a>	17/07/2025	Updated latest leaflet for adults and children
<a href="#">UKHSA</a>	<a href="#">Diphtheria: public health control and management in England - GOV.UK</a>	17/07/2025	Updated 'Public health control and management of diphtheria in England' and 'Supplementary guidance for cases and outbreaks in asylum seeker accommodation settings'.
<a href="#">UKHSA</a>	<a href="#">Diphtheria: cases among asylum seekers in England, 2022 to 2025 - GOV.UK</a>	17/07/2025	Updated monthly data tables to include June 2025 data.
<a href="#">UKHSA</a>	<a href="#">Skin lesions in newly arrived migrants - GOV.UK</a>	17/07/2025	Updated information in line with the derogation of clade I mpox, and to state that chickenpox is a notifiable disease. Updated IPC sections for chickenpox and measles.
<a href="#">UKHSA</a>	<a href="#">Doxycycline: serious or severe adverse effects - GOV.UK</a>	17/07/2025	This review summarised evidence from recent systematic reviews on serious or severe adverse effects of doxycycline taken for up to 30 days, focusing on short to medium-term use (search from January 2021 up to 12 August 2024 to follow on from a recent systematic review).
<a href="#">UKHSA</a>	<a href="#">Huge biosecurity centre investment to boost pandemic protection - GOV.UK</a>	17/07/2025	World-leading biosecurity centre in Harlow, Essex to protect the UK against emerging public health threats
<a href="#">UKHSA</a>	<a href="#">Hepatitis B: screening care in pregnancy and protecting your baby - GOV.UK</a>	16/07/2025	Updated - Clarified age range
<a href="#">UKHSA</a>	Various documents	15/07/2025	Multiple guidelines have been updated to UKHSA branding.
<a href="#">UKHSA</a>	<a href="#">High consequence infectious disease: country specific risk - GOV.UK</a>	14/07/2025	Updated for a recent CCHF case in Greece and pneumonic plague case in the US
<a href="#">UKHSA</a>	<a href="#">Post-exposure prophylaxis for chickenpox and shingles - GOV.UK</a>	14/07/2025	Updated to version 8, see guidance history for changes.

<a href="#">UKHSA</a>	<a href="#">Flu vaccination for children: leaflets and posters - GOV.UK</a>	14/07/2025	Added links to translated leaflets.
<a href="#">UKHSA</a>	<a href="#">Respiratory syncytial virus: the green book, chapter 27a - GOV.UK</a>	14/07/2025	Updated to include nirsevimab selective immunisation programme information. Updates to older adult adverse reactions section, older adult coadministration, and on recent efficacy and disease burden evidence.
<a href="#">UKHSA</a>	<a href="#">Lassa fever: origins, reservoirs, transmission and guidelines - GOV.UK</a>	11/07/2025	Updated UK case count to 16 to align with current literature.
<a href="#">PHS</a>	<a href="#">Meningococcal B (MenB) vaccine to protect against gonorrhoea - Publications - Public Health Scotland</a>	16/07/2025	This leaflet provides information on the meningococcal B (MenB) vaccine that is being offered to eligible adults to help protect them against gonorrhoea. Sexual health clinics will assess eligibility for the vaccine.
<a href="#">PHS</a>	<a href="#">Gonococcal MenB vaccine resources - Publications - Public Health Scotland</a>	16/07/2025	Resources to support the use of the Meningococcal B (MenB) vaccine to protect against gonorrhoea.
<a href="#">IDSA</a>	<a href="#">Complicated Urinary Tract Infections (cUTI): Clinical Guidelines for Treatment and Management</a>	17/07/2025	IDSA has released the first IDSA guidelines on management and treatment of complicated urinary tract infections (cUTIs).
<a href="#">EvidenceAlerts</a>	Latest alerts		Safety and immunogenicity of a reduced-dose inactivated poliovirus vaccine versus a full-dose inactivated poliovirus vaccine in infants in Bangladesh: a double-blind, non-inferiority, randomised, controlled, phase 3 trial. Lancet Infectious Diseases
<a href="#">EPA</a>	<a href="#">Guidelines on the Preparation of Evidence Synthesis Reports</a>	Jul-25	This document provides general guidance for authors on the preparation of the EPA Research Evidence Synthesis Reports that are required for projects funded under the EPA Research Programme 2021-2030.
<a href="#">EPA</a>	<a href="#">Research 489: Strategies to Improve Water Quality from Managed Peatlands (SWAMP) Project   Environmental Protection Agency</a>	Jul-25	The Strategies to Improve Water Quality from Managed Peatlands (SWAMP) research project aimed to address key knowledge gaps about water quality degradation in Ireland's peatland areas.
<a href="#">IAEA</a>	<a href="#">Tritium Level Far Below Japan's Operational Limit in 13th Batch of ALPS-Treated Water, IAEA Confirms   IAEA</a>	14/07/2025	Independent sampling and analysis conducted by the International Atomic Energy Agency (IAEA) have confirmed that the tritium concentration in the 13th batch of ALPS-treated water

<a href="#">IAEA</a>	<a href="#">Marking a Milestone: 20th Anniversary of the Amendment to the Convention on Physical Protection of Nuclear Material   IAEA</a>	14/07/2025	Twenty years ago, the adoption of the Amendment to the Convention on the Physical Protection of Nuclear Material (A/CPPNM) marked the start of a new era in international efforts to counter the risk of nuclear security threats.
